

SENIOR QUALITY ENGINEER

- Bachelor's degree in Civil Engineering or a related field; a master's degree is a plus.
- Proven experience (typically 5+ years) in quality assurance/quality control in civil engineering projects.
- Strong knowledge of quality management systems (ISO, ASTM, etc.) and relevant regulations.
- Excellent analytical, problem-solving, and decision-making skills.
- Strong communication and interpersonal skills, with the ability to work collaboratively in a team environment.
- Proficiency in quality management software and Microsoft Office Suite.
- Certification in quality management (e.g., Six Sigma, ASQ Certified Quality Engineer) is an advantage.
- Experience with project management tools and methodologies.
